

Production Partnership Management

....a Standard approach to deliver change

Ray Patrucco, Ordnance Survey (GB), IST36 (UK)

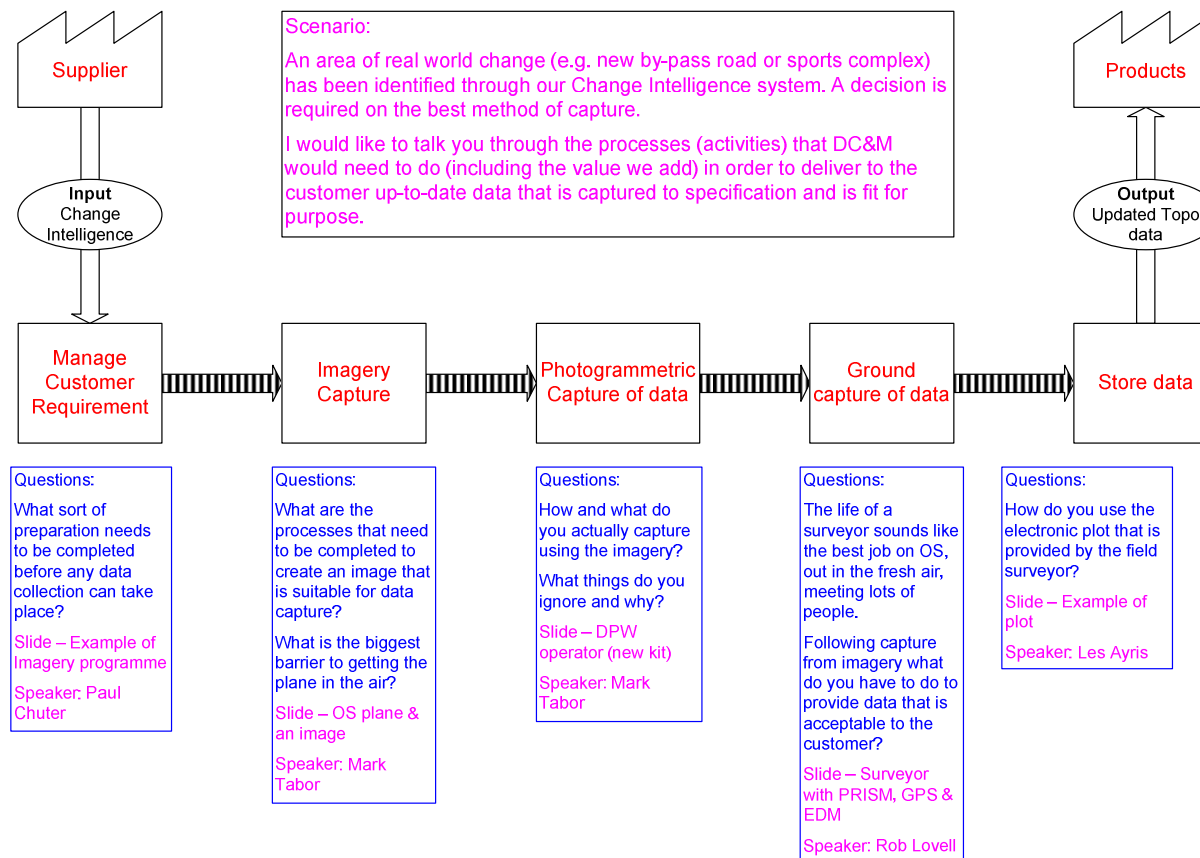

People

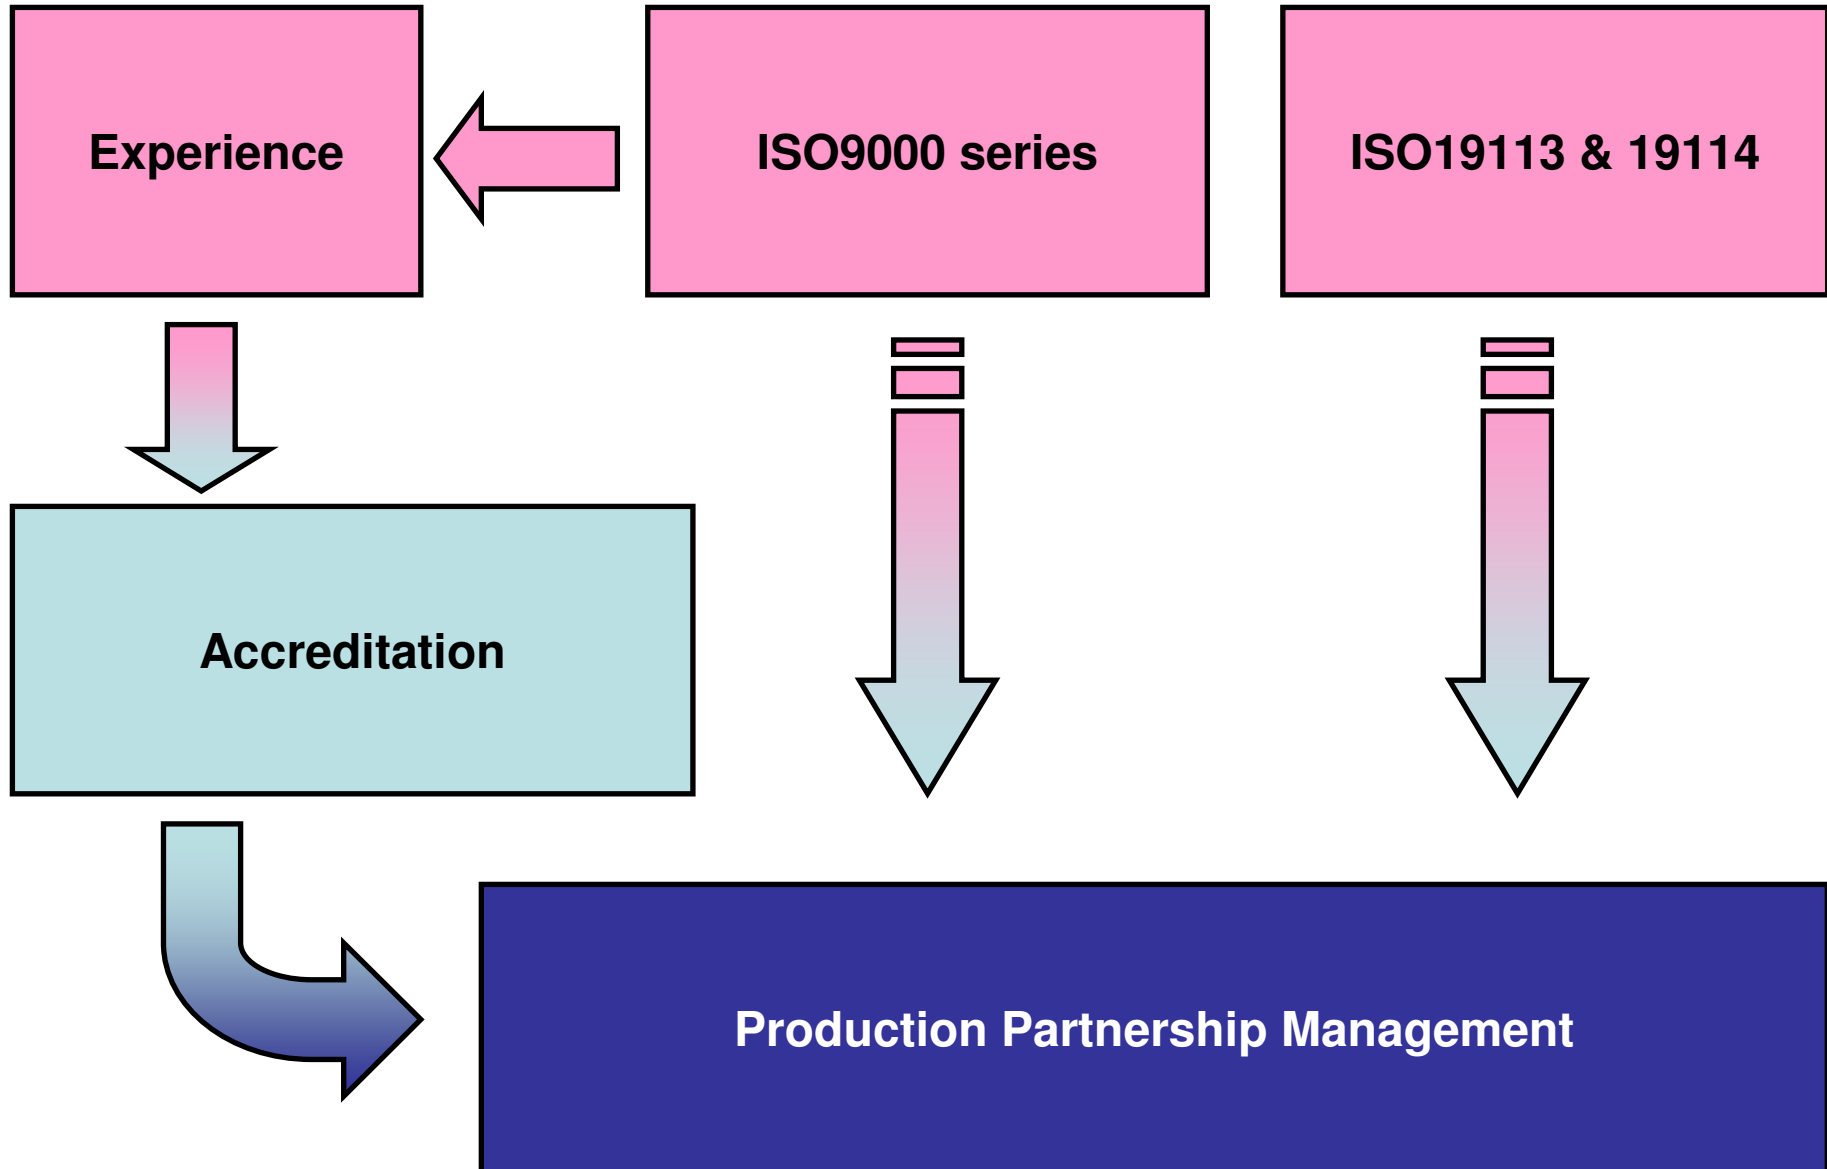

Process

DC&M Data Capture

A standard approach to
different production methods

History - Provenance

Quality of process and sub process output in production

*A quality evaluation process may be used in different phases of a product life cycle, having different objectives in each phase. The phases of the life cycle considered here are specification, **production**, delivery, use and **update***

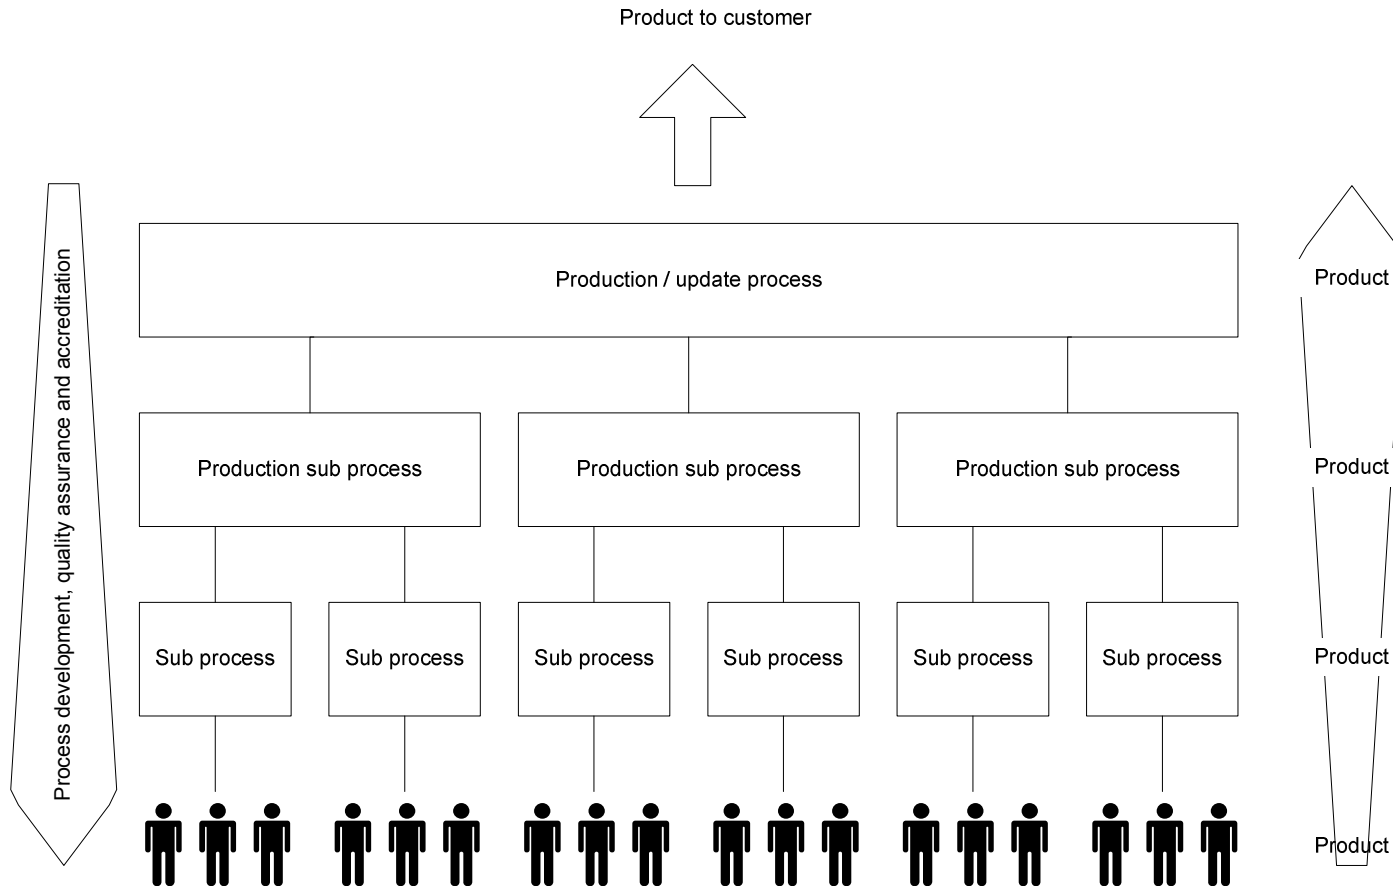

6.1, 19114

What is quality?

Whatever the customer says it is!

- » data quality
- » cost
- » quantity
- » schedule

Quality at point of production

Successfully implementing change

With empowered and engaged staff*

*or suppliers

A confident and successful team

19158: Quality assurance of data supply
