

Create and maintain Interoperable Glossaries

Glossary project

By: Ankita Tripathi
Technical Writer

Agenda

- Why glossaries?
- Challenges
- Solution? How to solve this?
- What's in it for you?

Why Glossaries?

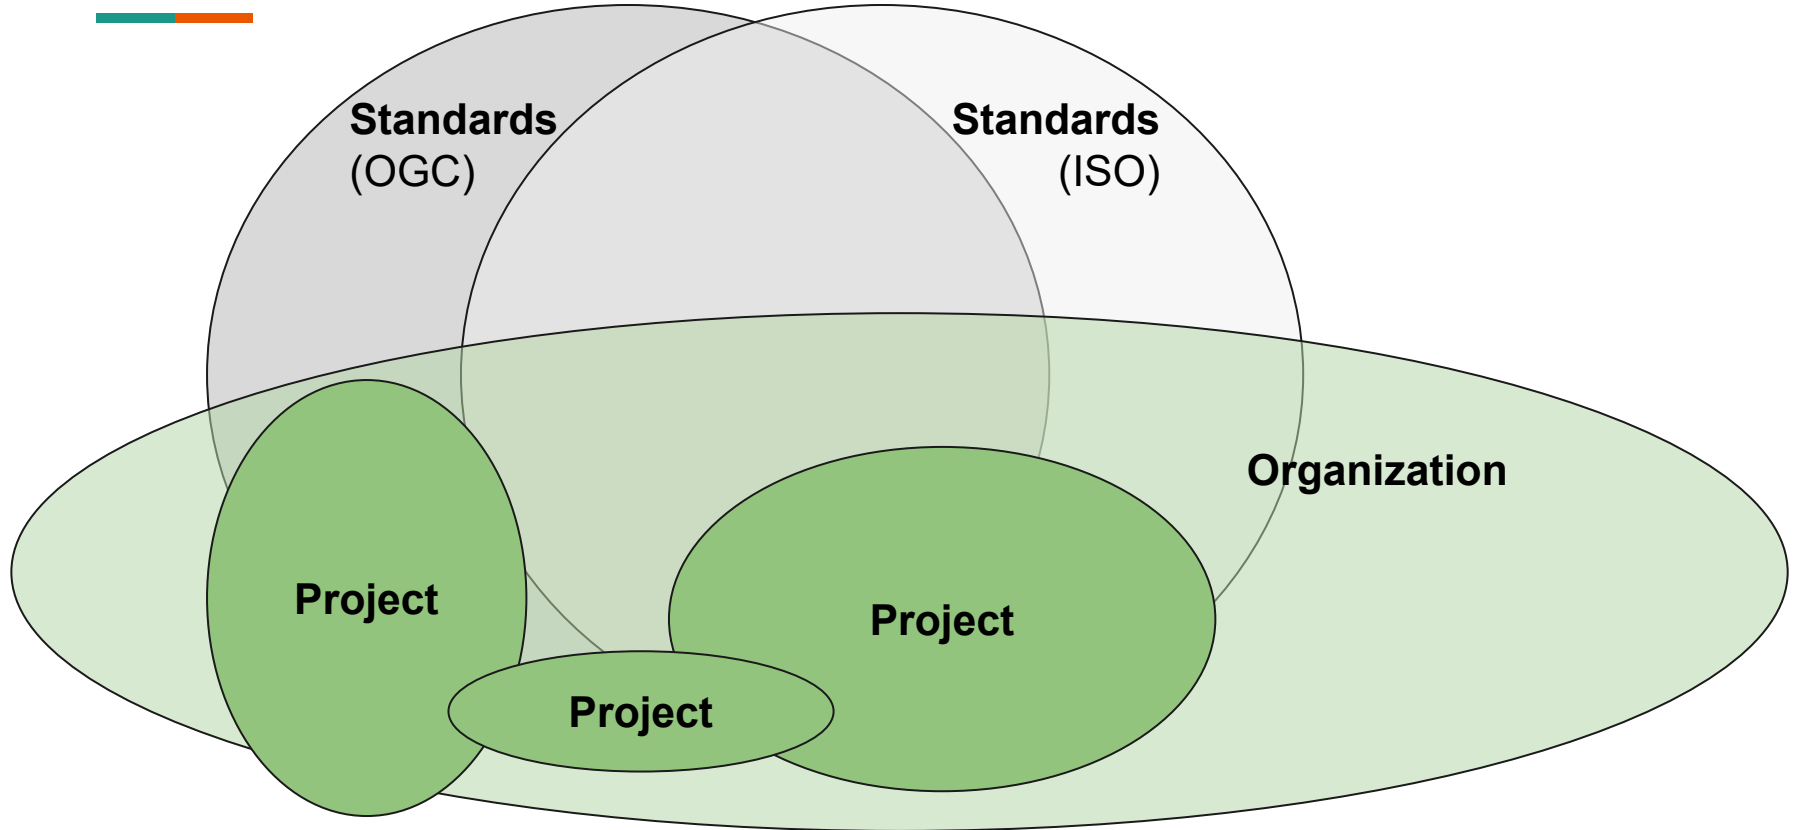

- For a doc:
 - Just a table of terms
- For a project:
 - Central repository
- For an organization:
 - Mandate rules to follow
- Cross organisation
 - Collaboratively agree on standard

Challenges

- Consistency
 - Preferred terms to use
 - Sentence structure
 - Fields used
- Interoperability
 - Cross-reference to point-of-truth
- Maintenance
 - Governance processes
 - Update cycles
 - Conflict resolution
 - How-tos
 - Version management
- Tooling
- Translations (possibly)

Collections of terms will overlap

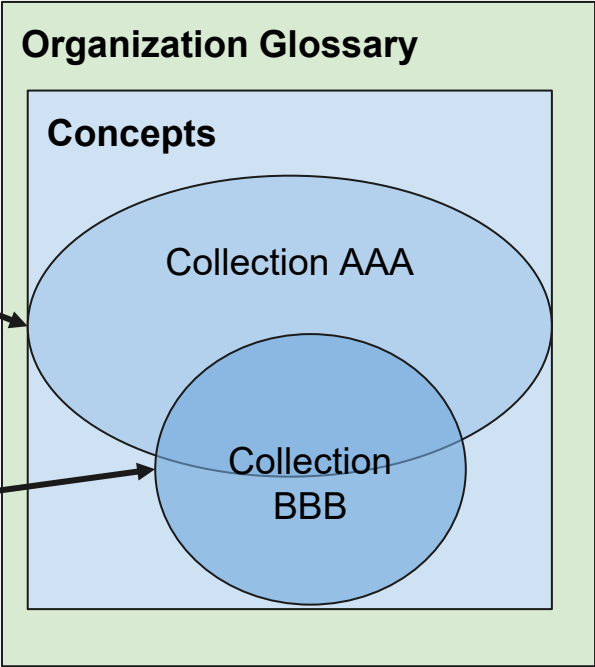

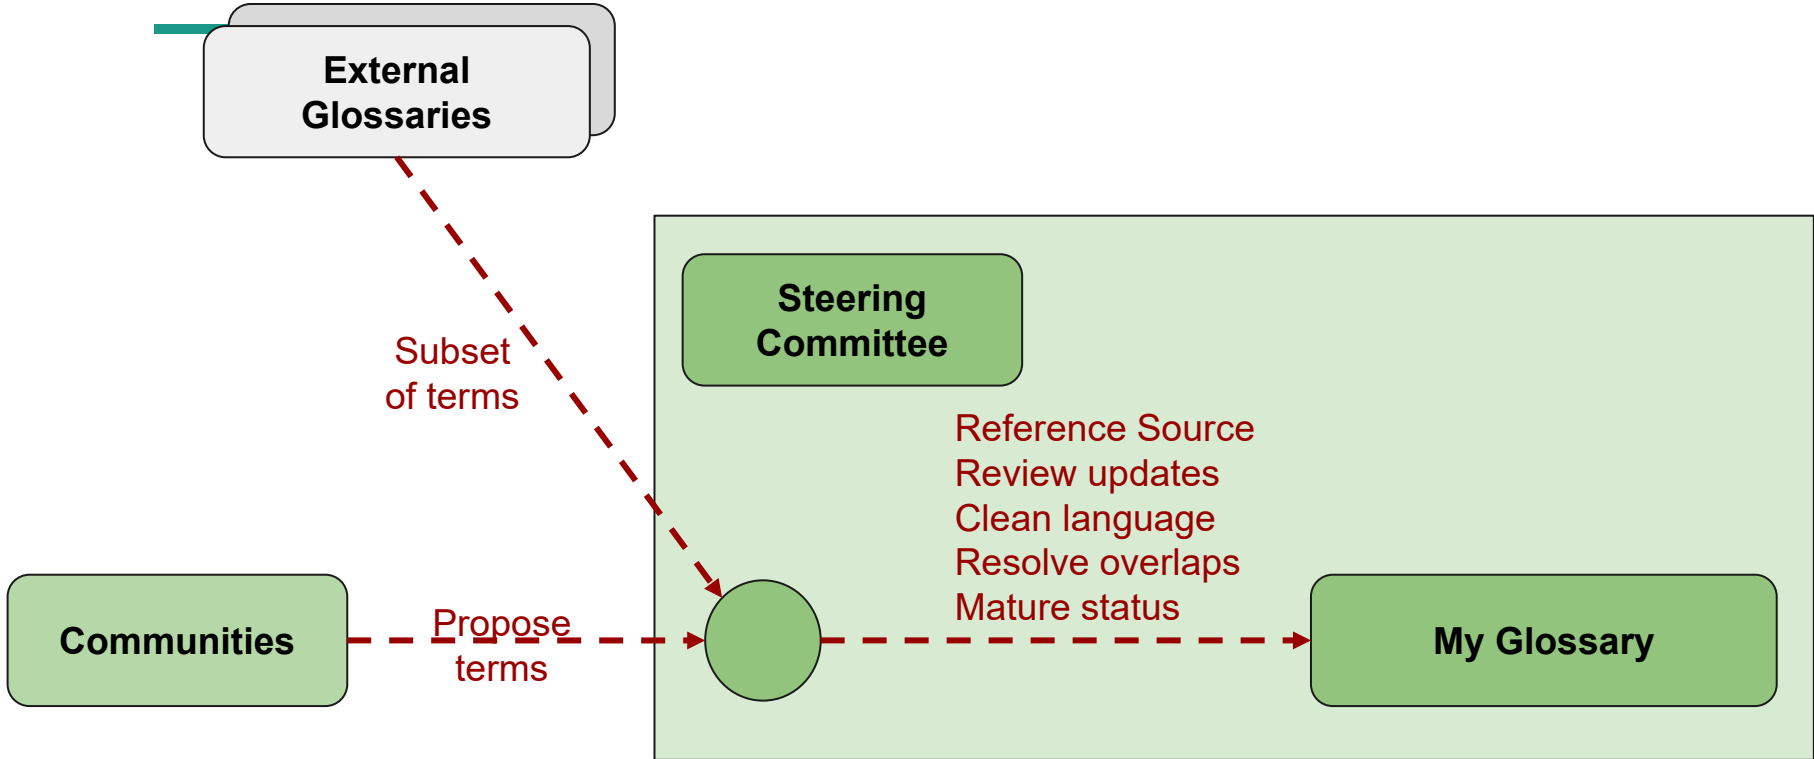

Solution. How to?

- Research best practices
- Establish standard fields & sentence structures
- Deploy, test, improve tools.
- Write how-tos.
- Recommend governance processes.
- Establish glossaries for spatial domain.
- Translations (possibly)
- Propose next steps

Collection of terms

Governance

Summary

- Defining terms facilitates clear communication
- Cross-domain glossaries management requires community uptake of standard interfaces
- We're building and testing these best practice within The Good Docs Project
- Watch this space, and get involved
